

Thank You!

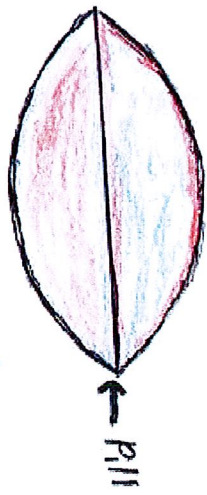

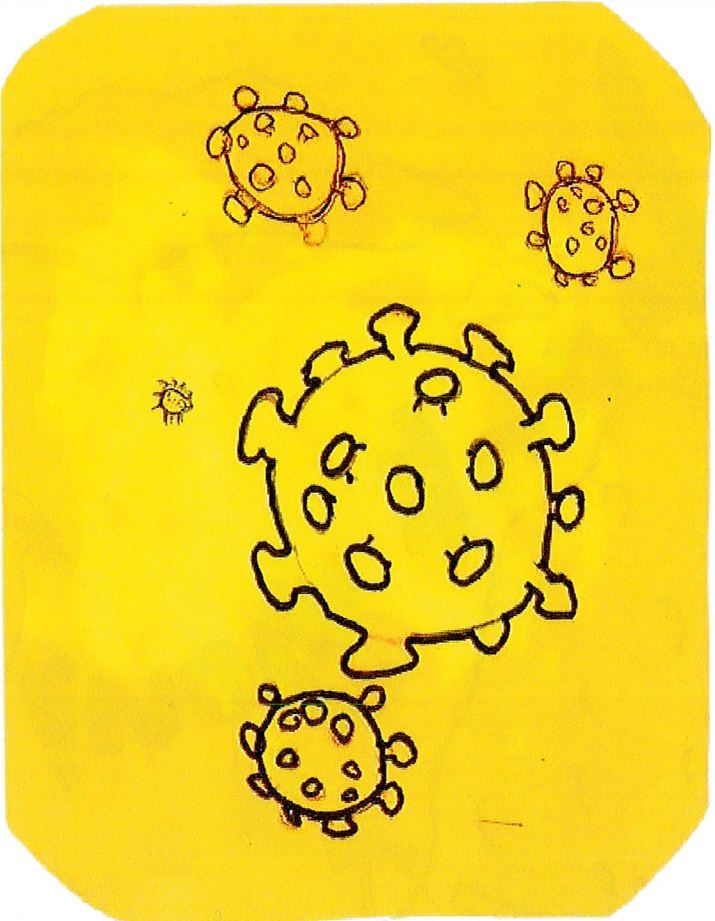

Dear Pathologists,
I am saying thank you because
you are the reason we are safe
in the NIT.
Each day you go to work,
you risk you and your family
health and for that I say
thank you. (Find the Rat!)

(Enjoy the dinosaurs)

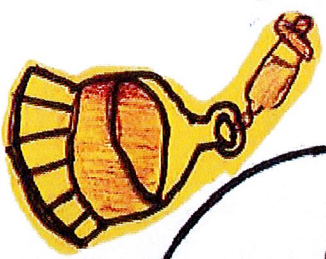

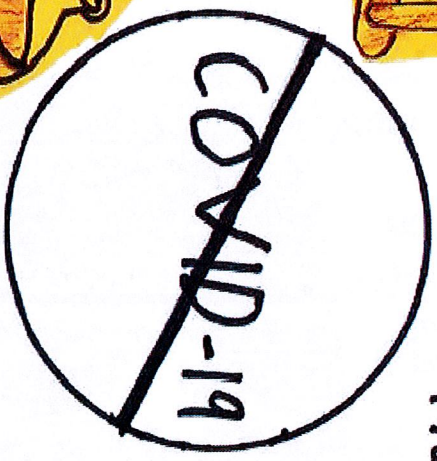

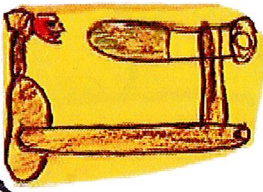

NT=27
Confirmed for covid 19

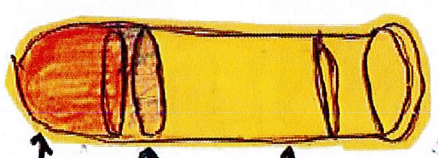

Dear Pathologists,

Thank you for risking your lives to protect others and joining the fight against Covid-19. We are very thankful for you working so hard to keeping people's lives safe. We really appreciate it.

Dear Pathologist

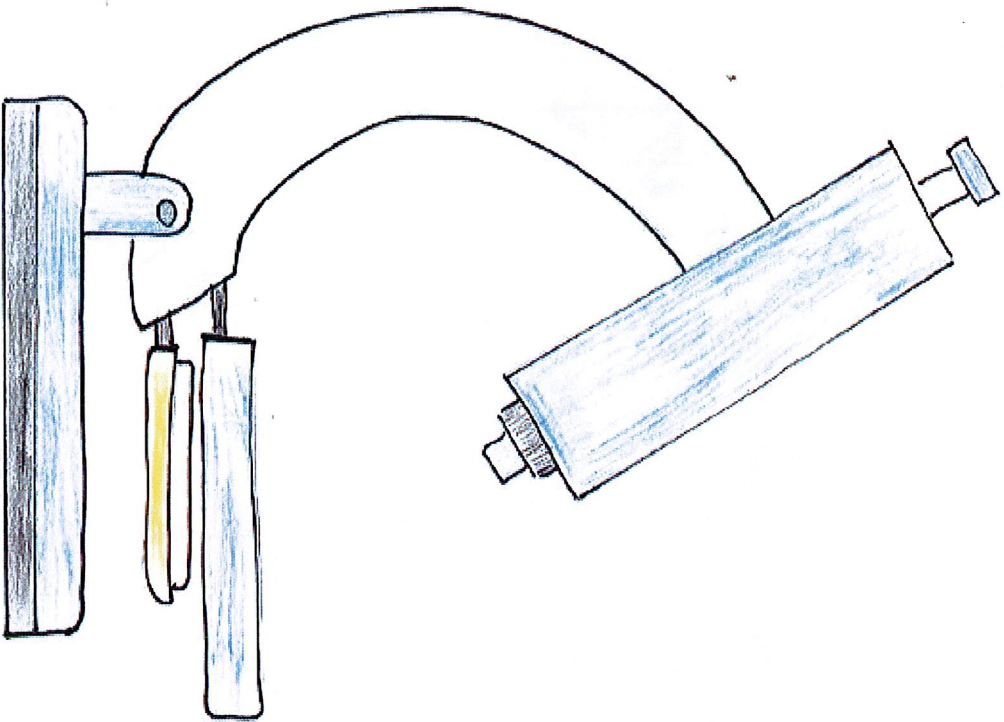

We send you this letter to thank you all for doing amazing things that you all have done and risk during the COVID-19 pandemic.

We THANK YOU for:

- Testing all the samples
- Risking your health ~~and~~
- Helping finding samples or cases and also working long shifts
- Working towards controlling the outbreak of the COVID-19.

We would also like to wish you all good luck!

From: Marijele and Nora

Dear Pathologist, thank you for going ²⁰²⁰
to work and Risking yours and your family's
lives, testing samples and working long
shifts.

I hope we will soon find a cure for this
virus and hopefully life will go back to
normal soon.

From
Claudia ☺
